

Experience learning at Universiti Teknologi PETRONAS

Malaysia's premier university

At University Teknologi PETRONAS (UTP) our goal is to produce leaders of the future, graduates who are not only brain-smart but well rounded, wholesome individuals who will contribute towards making the world a better place.

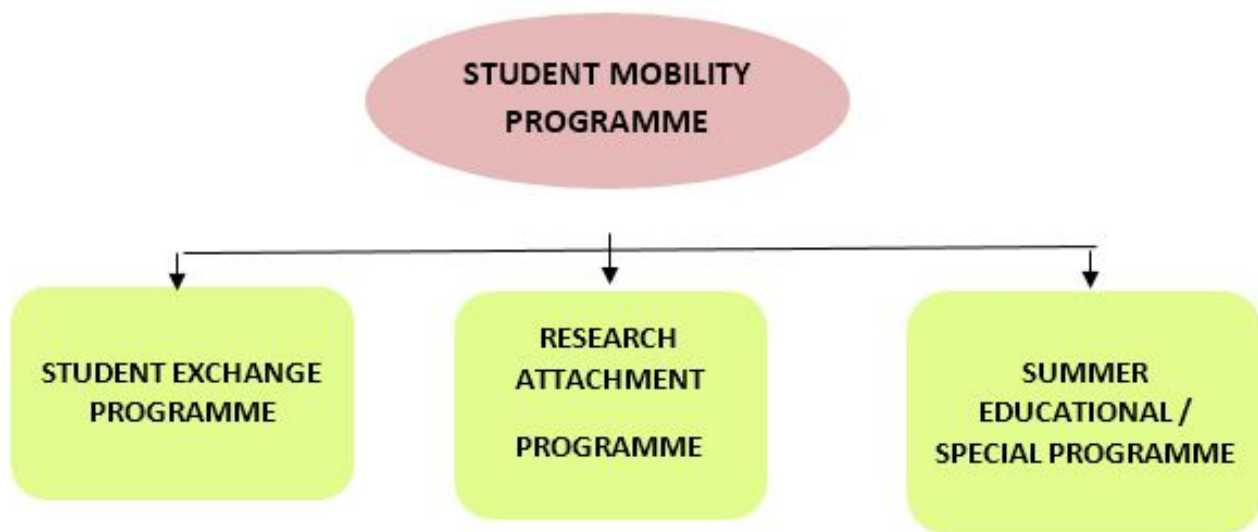

And so at UTP we guide you to become technically competent, to think critically, to communicate and relate with people and the world around you. We lead you to become solution oriented individuals with good business sense, a positive can-do attitude and practical know-how in various aspects.

As a university specialising in engineering and technology programmes, strongly supported by Research and Development, UTP works hand-in-glove with industry players to ensure that we mould and lead our graduates to become relevant to industry. In turn, our students are exposed to real-world environments, situations and needs.

Ours is a melting pot of cultures and lifestyles as we group together students from the world over. And we believe that education should cross borders as the world becomes a global village of citizens working for a better tomorrow.

We welcome you to join us for a new learning adventure, to expand your horizons through a different educational experience here in Malaysia with us.

Choose from the following Student Mobility Programmes that we offer:

STUDENT EXCHANGE PROGRAMME - For full-time holders of a degree (BSc/BEng/BScHons) students.

FACULTY	AREAS OF STUDY
